

Oregon High School Football Records

6-Man

Compiled by Larry Moulton & Mal Van Meer

(Last update 11-30-18)

Six-man football was developed by Stephen Epler in 1934 in Chester, Nebraska as a way for small schools to field a football team during the Great Depression. The six-man game is played on a field that is 80 yards long and 40 yards wide. A field goal counts as four points, a kicked extra point counts as two and a conversion by running is worth one point. A team must make 15 yards for a first down. Six-man football was played in Oregon from 1937 through the 1959 season then teams started playing eight-man in the 1960 season. Oregon resumed playing 6-man football in 2018.
